Copyright Assignment

The copyright law effective 1 January 1978, gives the copyright of a work to the person who wrote it. AIAA and ASME prefer to hold the copyright of any work they publish, with the clear understanding that the author and the author's organization have the right to reproduce it in print form (non-electronic) for their own purposes, provided that the reproductions are not for sale. The Copyright Assignment accomplishes this.

- Choose only one Copyright Assignment statement.
- All authors must sign the Copyright Assignment statement.
- Return the Copyright Assignment statement to your Session Chairperson with your manuscript.

Statement A: I assign copyright to my paper to AIAA and ASME, giving the societies all right to it except that I and the organization by which I was employed at the time I wrote the manuscript have the right of further reproductions, in part or in full, provided they are not for sale.

If this statement is signed, the following notation must appear in the lower left corner of your first manuscript page. "Copyright © 2004 by the American Institute of Aeronautics and Astronautics, Inc. and the American Society of Mechanical Engineers. All rights reserved"

Signature of Primary Author

Date

Statement B: Occasionally, special situations arise in which the author (or his/her organization, if the copyright has been assigned to it) wishes to retain the copyright in his/her (or its) name. In such a case, a license is required to publish the work. The following statement accomplishes this.

I hereby license AIAA and ASME to publish this work and to use it for all of AIAA's and ASME's current and future print and electronic uses.

If this statement is signed, the following notation must appear in the lower left corner of your first manuscript page. "Copyright © 2004 by _____. Published by the American Institute of Aeronautics, Inc. or the American Society of Mechanical Engineers with permission."

Statement D: I am employed by NASA and prepared this work as part of my official duties.

If this statement is signed, the following notation must appear in the lower left corner of your first manuscript page. "Copyright © 2004 by the American Institute of Aeronautics and Astronautics, Inc. and the American Society of Mechanical Engineers. No copyright is asserted in the United States under Title 17, U.S. Code. The U.S. Government has a royalty-free license to exercise all rights under the copyright claimed herein for Governmental purposes. All other rights are reserved by the copyright owner."

Signature of Primary Author	Date
-----------------------------	------

Statement E: This work has been prepared by a contractor of the U.S Government. The U.S. Government and the contractor have a non-exclusive, royalty-free license to publish or reproduce the published form of this contribution, or allow others to do so, for U.S. Government purposes.

If this statement is signed, the following notation must appear in the lower left corner of your first manuscript page. "This material is declared a work of the U.S. Government and is not subject to copyright protection in the United States."
